**Shipped Semen Stallion Service Contract**

The following is an agreement between JG Appaloosa Sport Horses, hereinafter referred to as 'farm', who will stand the Appaloosa stallion:

<b>Wap Spot</b>	<b>Waps Millennium</b>	<b>Waps Rolls Royce</b>	<b>Waps Infinity</b>
-----------------	------------------------	-------------------------	----------------------

**(Please Circle One.)**

**AND**

**Name:** \_\_\_\_\_

**Address:** \_\_\_\_\_

**City:** \_\_\_\_\_ **State:** \_\_\_\_\_ **Zip Code:** \_\_\_\_\_

**Phone Number:** \_\_\_\_\_

**Email Address:** \_\_\_\_\_

**Hereinafter referred to as "owner", who wishes to book and breed the following mare:**

**Name:** \_\_\_\_\_ **Reg #:** \_\_\_\_\_

**Breed:** \_\_\_\_\_ **Foaled:** \_\_\_\_\_

**Color:** \_\_\_\_\_

**Sire:** \_\_\_\_\_ **Reg #:** \_\_\_\_\_

**Sire's Sire:** \_\_\_\_\_ **Sire's Dam:** \_\_\_\_\_

**Dam:** \_\_\_\_\_ **Reg #:** \_\_\_\_\_

**Dam's Sire:** \_\_\_\_\_ **Dam's Dam:** \_\_\_\_\_

**Hereinafter referred to as "mare"**

**Subject to the following conditions:**

It is agreed that:

1. The breeding season for shipping semen shall begin February 15th. and end July 10th. During the term of the breeding season, the farm will diligently try to get the mare in foal.
2. If for any reason the mare does not settle in foal, the farm, its personnel, and veterinarian will be held harmless.
3. Should the above named stallion die or become unfit or unavailable for service and said mare does not produce a live, healthy foal, the mare owner may select another stallion standing at JG Appaloosas with monies paid applied to that stallion's breeding fee. Mare owner is responsible for paying the difference in stud fee if a stallion is chosen with a breeding fee of higher value. If a stallion is chosen with a lower breeding fee, the difference will be refunded.
4. Mare owner shall have the right of return for the above named stallion's service in the next breeding season and a third breeding season, if necessary, when:
  - A. Mare does not settle in foal during the present breeding season.
  - B. Mare is examined in foal but becomes barren during gestation.
  - C. Mare produces a live foal that is unable to stand and nurse, and subsequently dies

In all cases, a veterinary certificate will be required.

5. If the mare should become unbreedable or if the mare should die before producing a live, healthy foal, the mare owner may substitute another mare with permission from JG Appaloosas.
6. Mare owner will attempt with due diligence to get mare in foal; if however, the mare does not get in foal and produce a live foal after three breeding seasons, (three years), JG Appaloosas will have no further liability for breeding any mares.
7. J G Appaloosa Sport Horses also has an unconditional guarantee. If for ANY reason the mare owner is not satisfied with the resulting foal, J G Appaloosas will breed the mare back FREE, (excluding any veterinary, shipping charges, etc...), during the current years breeding season. The mare owner must notify J G Appaloosas within 30 days of foaling of impending return and deliver the unsatisfactory foal to the farm at time of weaning.
8. The stallion service fee of \$\_\_\_\_\_ includes a booking fee of \$250 payable upon execution of this contract.

The balance of the stallion service fee of \$\_\_\_\_\_ is to be paid prior to shipping semen.

9. To book your mare, return the following:
  - A. This contract signed and dated.
  - B. The booking fee of \$250.00, (Deducted from the stallion service fee).
  - C. If possible, a copy of the mares registration certificate

10. The mare owner plans to breed the mare during the month of: \_\_\_\_\_, and agrees to notify the farm the first day of her heat cycle.

Mare owner must notify farm before 5 pm Eastern Time, for next day collection and shipping of semen.

11. The mare owner agrees to return the shipping container within one week of insemination of mare. US Post Office is the most economical. Mare owner will be charged \$20 for any containers not returned.
12. The mare owner agrees to have a qualified veterinarian inseminate the mare.

13. The mare owner agrees to have the mare checked for pregnancy 18 - 21 days after insemination, (palpation or ultra sound). If another shipment is needed, the farm needs to be contacted immediately to insure that the next shipment is in time for the next cycle.

14. We ship overnight Federal Express., Monday through Friday. Two doses are included in every shipment so mare can be inseminated twice if your veterinarian deems necessary. If ovulation could possibly occur on a Monday, inseminating the mare on Saturday and again on Sunday should suffice.

15. Most mares will become pregnant with one or two shipments. All charges for up to two shipments are included in the stallion service fee.

If additional shipments are needed, mare owner agrees to pay \$150 collection/preparation/shipping fee for each additional shipment, prior to shipping. Mare owners or agents who choose to pick up the semen from JG Appaloosas agree to pay \$100 collection/preparation fee for additional collections.

16. If the mare does not conceive after 3 heat cycles, veterinary re-evaluation of the mare is required.

17. JG Appaloosas is not responsible for loss, delayed, or damaged semen during shipment with Federal Express.

18. A breeders certificate will be issued by J G Appaloosas upon report of a live foal and all other conditions of this agreement have been met.

19. When both parties have signed this agreement it will then be a binding contract on both parties. Subject to the above terms and conditions.

Stallion Owner Signature:	Mare Owner Signature:
